Pupil Premium Priorities linked to Whole School Improvement Plan- 3 year strategy- 2025-2028

2025-2026	2026-2027	2027-2028
- The vocabulary gap by the end of EYFS between PP and Non-PP pupils is notably closed. - PP pupils are effectively supported to make rapid progress and minimise the gap in outcomes between PP and Non PP pupils at all stages - Disadvantaged pupils have opportunities to develop career aspirations through varied opportunities and experiences - Persistent and severe absence affecting PP pupils is reduced	- Personal development continues to be prioritised and there is a strong focus upon pupil wellbeing and mental health - There is no notable difference between attendance of Non PP and PP - In EYFS the gap between PP and Non- PP achieving GLD is narrowed % of disadvantaged pupils achieving ARE+ at KS2 is significantly increased	- Disadvantaged pupils make exceptional progress across all areas of the curriculum - Disadvantaged pupils are aspirational and ambitious- they have accessed opportunities within and beyond the curriculum and are inspired by these % of disadvantaged pupils achieving GDS has increased
Key challenges for disadvantaged pupils		
Internal Challenges		
Lower attainment upon entry to school		
Increased SEND		
KS2 outcomes for combined RWM		
Literacy development and skills- including vocabulary acquisition, communication, language, reading and writing.		
External Challenges		
Increase in levels of support needed for pupils and their families – including SEND and referrals to TAC, Early Help and other external services		
Persistent absenteeism and poor attendance		
Limited opportunities beyond school due to rurality		

Pupil Premium Priorities	Desired Outcomes	Success Criteria	Evaluation		
			Autumn 2025	Spring 2026	Summer 2026
Teaching					
Improved pupil outcomes and increased progress and attainment at all stages of development	Teaching staff are experts in their practice which is underpinned by consistent pedagogical approaches	High quality, targeted CPD ensures that teachers are skilful in presenting curriculum content to ensure all pupils learn progressively and build upon prior knowledge	Analysis of IDSR and ASP demonstrates that there is no notable gap in KS2 pupils attaining ARE in Mathematics and a gap has emerged with those achieving GDS.	Adaptive teaching is leading to strong progress, particularly in UKS2 since Jan 26. Current assessments show that presently 58% of pupils are on track to achieve RWM at end of KS2. Year 6 additional after school booster sessions in Maths and Reading are now in place led by members of senior and executive leadership team.	The implementation of Pixl has provided focused diagnostic assessment of pupil needs and any gaps in learning and staff have begun to utilise the assigned therapies with pupils to target these. This practice will continue to embed over the forthcoming academic year.
	Assessment is effectively utilised to support our pillars of great teaching- adaptivity and ambition	Assessment system is embedded and impact evidenced	Current assessments show that PP pupils continue to make good progress, however closing the gap between PP and Non-PP attainment continues to be prioritised.	There is a gap in current attainment of PP and Non -PP across the core subjects at KS2, however this is largely linked to overlapping SEND. School leaders including the SENDCo are closely monitoring pupil progress and PPMs are conducted to focus upon key pupils and groups.	Pupil assessments across year groups, continue to show the attainment gap in core subjects between PP and Non-PP is closing.
	Improved outcomes for all pupils; ensuring ambition for every child	Assessment in the moment practices are refined and embedded to support ‘adaptivity’ and responsiveness to pupil learning needs	Assessment processes continue to be developed. Further work to be undertaken to support assessment analysis to ensure that there is increased accuracy in forecasting.	Recently we have invested in PIXL and have appointed a Raising Standards lead to further focus upon precision within assessment	Where this is not the case it is linked to cooccurring SEND. However, progress remains strong and this is evident in pupil progress over time.
			Outcomes for PP pupils in core curriculum are improved at all stages and attainment gap between PP and Non- PP is narrowed		

				and utilise 'therapy' resources and specialist external support to ensure pupil needs are effectively targeted and supported.	
All staff are highly skilled and have strong curriculum expertise, ensuring that all pupils are effectively supported, gaps in learning are addressed and progress is accelerated.	Adaptive teaching ensures all pupils make strong progress and gaps in learning are quickly addressed. Disadvantaged pupils receive effective support to ensure they make strong progress in all areas of the curriculum at all stages.	<i>Teaching staff are highly skilled in utilising assessment to identify pupil learning needs and skilfully adapt teaching to address gaps in learning and accelerate progress.</i> <i>Support staff are highly trained and effectively deployed to provide targeted support within lessons and enhance adaptive teaching within the classroom.</i> <i>All staff delivering RWInc have accessed training to ensure high quality teaching</i> <i>RWInc is taught systematically within small groups which are reviewed in line with assessments to ensure progress</i>	Teaching and support staff have received focused CPD in relation to adaptive teaching and this has been a significant focus across the curriculum, including within foundation subjects. Confidence is developing and this will continue to be a focus of monitoring and support to ensure direct impact upon pupil progress within and across lessons. In KS1 pupils continue to make strong progress in phonics with effective teaching of RWInc across all groups evidenced in monitoring and evaluation. RWInc development advisor will offer additional advice and support to ensure progress continues to be accelerated.	CPD for all staff remains linked to school development priorities and is monitored by school leaders to ensure impact. Recent teacher performance management reviews have been utilised to ensure there is focused discussion related to individualised career development. Support staff CPD is also prioritised through SDP and individual performance management. ECT newly appointed to UKS2 is effectively supported within role and is benefiting from accessing CPD opportunities internally and through external providers. Having reviewed our approaches to assessment and to support teaching practice we have implemented PIXL and this is currently at a very early stage.	Our CPD strategy clearly aligns with school development priorities and has directly impacted upon the quality of teaching and learning through development of teaching and support staff pedagogical knowledge and skills. The CPD offered through PiXL has supported teaching staff in focusing upon key areas of learning and targeted teaching. This is something we will continue to build upon as PiXL approaches embed. As a result of focused systematic teaching and quality CPD, high attainment in phonics has been maintained with 90% Year 1 achieving PSC, 100% of PP pupils achieving this standard. This exceeds local and national data and meets the aspirational DfE target.
To effectively support disadvantaged pupils in Reception to make rapid progress from EYFS baseline	Teaching Staff in Early Years demonstrate strong expertise and skill and ensure that high quality teaching supports	<i>GLD is in line with National and there is a narrowed gap between PP and Non- PP</i> <i>Pupils have received targeted support leading to rapid progress across</i>	Progress from baseline assessments for pupils in EYFS is good. All pupils are accessing a broad and ambitious curriculum and provision is of a consistent high quality across the 7 areas of learning. This has been evidenced in monitoring.	Progress continues to be strong across all areas of learning. Presently 75% of pupils are on track to achieve GLD. PPMs have been utilised to review progress and targets of pupils to	Progress across Reception and Nursery has been excellent. 89% pupils achieved GLD with 100% Pupil Premium pupils achieving this standard. This exceeds

	accelerated progress from baseline assessments All pupils access an ambitious EYFS curriculum which Early identification of pupil needs	<i>prime and specific areas of learning</i> <i>Continuous provision is of a consistent high quality and is reflective of pupil interests and pupil needs</i> <i>EYFS staff are confident in their roles and in ensuring high quality interactions with all children</i>	Targeted support is in place and evaluated regularly within provision maps, following APDR processes. Support will continue to be effectively mapped out in response to pupil need and assessment, with focused evaluation ensuring impact. Further development in relation to evidencing progress will be prioritised.	ensure achievement continues to be maximised. Additional staff have been appointed to work within the Reception/ Year 1/2 mixed age class to further ensure a targeted approach.	national and local standards and DfE targets. This high level of achievement demonstrates the quality of our EYFS provision.
To develop pupil aspiration, self-motivation and independent learning strategies.	Pupils are resilient and self-motivated. They take responsibility for their learning and are keen to progress. There is a strong sense of aspiration throughout the school.	<i>Effective assessment and feedback is used skilfully to scaffold learning-building upon what pupils know can do and understand.</i> <i>Pupils develop metacognitive approaches which enable them to use and apply independent learning strategies.</i> <i>Pupils are eager to learn and are able to discuss their aspirations and achievements.</i> <i>Pupils have opportunities to build upon their skills and talents</i>	Pupils are gaining confidence and resilience in their learning. They engage well and respond effectively to feedback and support. Pupil talents and interests are responded to, motivating and inspiring children to build upon these and apply this motivation across the curriculum. All pupils are encouraged to aim high. This will be further developed as the year progresses.	Lesson monitoring and evaluation by school leaders, governors and external agencies continues to evidence that pupils are motivated learners. Learning resilience remains an area of focus for UKS2, however since January there has been strong evidence of increased learning stamina and raised expectations. There are a wide range of clubs and enrichment opportunities available to all children. Attendance is monitored by the inclusion lead and groups (SEND and PP) attending are proportionally in line with whole school representation- evidencing opportunity and inclusion for all.	Pupils continue to develop as independent learners. Pupil motivation is improving and this is evidenced in the progress made and through monitoring. There continues to be strong engagement in our enrichment offer and this continues to be accessed by all. A priority for next year will be a focus upon developing foundational knowledge to ensure all children have the bedrocks of learning, including executive function to be successful.

Targeted Academic Support					
To utilise additional adults effectively in order to provide targeted interventions, leading to increased attainment in RWM	All disadvantaged pupils, including the 'First 20%', are effectively supported and benefit from adaptive and guided practice, smaller groups and adult support within core subjects. Interventions demonstrate measurable progress	<i>Provision maps, informed by assessment, effectively identify pupil learning needs and ensure a robust cycle of evaluation and review.</i> <i>Maths and English interventions are taught within small groups which are reviewed half termly to ensure progress.</i> <i>Fast track phonics tuition ensures % of pupils achieving PSC remains in line with National</i> <i>The attainment gap between PP and Non PP pupils is closed</i> <i>Effective scaffolding and adult support in R, W, M addresses individual learning needs and supports pupil progress.</i>	Interventions have been implemented in response to assessment. These are monitored through provision mapping and pupil progress is evidenced through focused assessment. Additional support will continue to be monitored and evaluated by subject leaders and Inclusion lead to ensure ongoing impact and appropriate targeting in response to ongoing assessment.	Interventions are delivered in line with provision maps and in response to teacher assessment and there is increased fidelity to ensuring these take place with regularity because of positive staffing changes. Impact of interventions is monitored by class teachers, subject leaders and the Inclusion leader and there is evidence of impact, particularly in UKS2 where pupils have made rapid progress since January. Current Y1 assessments show 62% of pupils are currently on track to achieve PSC standard. Fast Track phonics tuition needs to be implemented and prioritised to support learners who are not yet on track to achieve this standard.	Interventions are appropriate and timely. These are monitored effectively through regular review and provision mapping to ensure impact is maximised. This is evidenced in the strong progress made within and across lessons. Phonics interventions effectively targeted 'cusp' pupils and resulted in 91% Year 1 pupils achieving the standard. Further embedding of PiXL and use of therapies based upon diagnostic assessment will provide additional support for staff leading interventions and ensuring appropriately targeted teaching.
Wider Strategies					
Pupil well-being needs are identified and continue to be met through high quality pastoral care and support.	Pupil personal development, mental health and well-being is prioritised.	<i>Effective support and intervention addresses wellbeing and mental health needs of our most vulnerable pupils.</i> <i>Drawing and Talking trained assistants utilise</i>	Pupil wellbeing support and provision remains a strength. Drawing and Talking continues to be in place for pupils as appropriate and this is regularly reviewed and evaluated to ensure positive impact.	Pupil wellbeing support is strengthening. Across the school there is a strong ethos of nurture and care. Vulnerable pupils are supported through Drawing and Talking provision and, more recently, ELSA. This will continue to be developed through further staff	We continue to work effectively with children and families to support pupil well-being. There is a graduated approach from universal pastoral care to targeted support including Drawing and Talking and

	Pupils feel safe, valued and reassured. Emotional Literacy is developed	<i>strategies effectively to support pupils.</i> <i>Effective referral process is established to identify pastoral support required and regular evaluation ensures impact.</i>		CPD to increase capacity for delivery.	ELSA and working with external agencies for more specialised support. This ensures the wellbeing needs of all our children, including those who are most vulnerable are met. Plans to develop an inclusion base are being considered for the next academic year
Pupil aspiration is raised through inclusive, wide and varied enrichment opportunities for all	Pupils have opportunity to build upon their own talents, skills and interests Pupils awareness of career opportunities is increased Pupil cultural capital is enriched	<i>All pupils have opportunities across a range of fields to build upon their talents and interests</i> <i>Pupil motivation and enjoyment is increased</i> <i>The proportion of disadvantaged pupils partaking in extracurricular clubs and activities is in line with non-disadvantaged</i> <i>Careers based learning has increased pupil aspiration</i>	School continues to offer a wide range of opportunities for all children to access enrichment. This has included specifically identifying PP pupils expressing interest and talent in music for instrumental tuition. This academic year we have led 2 residential for Y4 and for Y5/6 these were significantly subsidised to ensure participation of disadvantaged pupils. Inclusion leaders continue to monitor attendance and engagement of all groups to ensure equitable access and where appropriate discuss any barriers with families.	Analysis of attendance at clubs evidenced that PP attendance remains proportional to the representation within cohorts. All clubs and enrichment opportunities are open to all and there are a wide range of activities available. As we have found that attendance of PP pupils during events and activities within the school day are often higher due to transport, we have broadened the range of lunchtime clubs and opportunities within the school day to ensure all children are able to attend.	Children continue to access wide and varied enrichment opportunities aimed raising aspiration and culturing talents and interests. This term these have included Year 6 Gala Dinner, Theatre trips, Sporting events, Forest school, Pop Rox and Whole school production. Many of these also offered opportunities to build parental partnership and community, including our Careers week; Children across the school had the opportunity to be involved in talks and workshops across a wide field of industry including, crime scene investigator, haulage, dance teacher and vets. Children engaged positively and were enthused and inspired. We will continue to build upon the success of this going forward.

Attendance is in line with National	There is a decreased gap between attendance of PP and Non-PP pupils Effective support in place to support families where children are at risk of persistent/severe absenteeism. A robust approach to monitoring and evaluating attendance of key children is in place and actions taken demonstrate a direct impact in raising attendance.	<i>School leaders have ensured an effective strategy to monitor and evaluate attendance data</i> <i>School attendance data is in line with National and Local</i> <i>There are strong networks of collaboration between home and school.</i> <i>School Leaders ensure every effort is made to encourage high attendance through robust policy and practice</i>	There is a significant gap between the attendance of PP and Non-PP pupils, which is concerning. This is linked to school mobility. School leaders continue to engage effectively with Local Authority to support families where there are barriers in place. Robust monitoring and evaluation from Inclusion Leader, Governors and Local Authority ensures that every effort possible is made to promote and secure high attendance.	Attendance remains broadly in line with National at 94% however persistent absence remains a concern 17.5%. There remains a significant between PP attendance which is currently 88.22% and persistent absence is concerning high for group at 41.67%. Severe absence for PP pupils continues to be an area requiring improvement. However, mindfulness is required in looking at % due to small cohort and group numbers. Our school attendance team continues to work closely with families and local authority to ensure there is a robust and supportive approach to improving attendance. Governor oversight and understanding in relation to attendance is strong.	Attendance continues to remain in line with National (94.81%) and persistent absence has significantly improved and is below National (14.46%). PP attendance has improved but remains below whole school at 90.45%. However persistent absence remains much higher in this demographic group. This will remain a focus for improvement next year. There is a strong understanding of attendance patterns across the attendance team and a focused and timely response, working closely with families to support in improving attendance. The local authority and governors work with attendance leaders to ensure there is oversight and the efforts of the attendance team in securing the highest possible attendance recognised through monitoring.
